

From a wide range of accessories, the customer can select the most suitable for their application. In all cases, FPZ suggests to install an inlet filter and safety valve on every machine.

- 1 - Inlet filter
- 2 - Inline filter
- 3 - Filter manifold
- 4 - Safety valve (pressure)
- 5 - Safety valve (vacuum)
- 6 - Check valve
- 7 - Ball valve (used to control flow by bleeding air)
- 8 - Pressure / Vacuum gauge
- 9 - Sleeve (for hose connection)
- 10 - Flexible hose
- 11 - Additional silencer
